About Me

I am a final year Electronics and Communication Engineering student aspiring to transition into software engineering. With a background in ECE and a two-month DRDO internship in Machine Learning, I bring a strong problem-solving aptitude, solid Data Structures and Algorithms skills, and a passion for coding. Eager to contribute effectively, I am committed to continuous learning and excited to leverage my technical foundation to excel as a software engineer.

Professional Experience

DRDO Desidoc | Project Trainee
June 2023 – July 2023

Key responsibilities:

- Used my Machine Learning skills to make a project on Recommendation Systems Using Python.
- Finished the project ahead of the deadline.
- Worked on multiple datasets.

Cetpa InfoTech Pvt. Ltd. | ML Trainee
June 2022 – February 2023

Key responsibilities:

- Mastered Python and created three projects: "Currency Converter," "Loan Calculator," and "Music Player."
- Acquired knowledge in Machine Learning.
- Executed two projects titled "Diabetes Prediction" and "Iris Classification" in the field of Machine Learning.

Certificates

DRDO- Industrial Training Completion Certificate	June 2023
Chezuba- YouTube Channel Setup and Management	Mar 2023
Cetpa- Training Completion Certificate	Feb 2023
Internshala- 6-week online training on Machine Learning	Nov 2022
IITK- Python Programming – A Practical Approach	May 2022
Udemy- Python Complete Course for Beginners	Jan 2022
